### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On page 1 of the specification, first paragraph, before the first sentence enter the following sentence:

--This is a continuation of Application No. 10/086,783, filed 02/28/2002.--

### **REASONS FOR ALLOWANCE**

Claims 1-21 are allowed.

The following is an examiner's statement of reasons for allowance:

As per independent claims 1 and 13, the prior art does not teach or reasonably suggest in combination the multi-function display including a bezel surrounding the display having controls for communication, navigation and equipment sensors and a display to provide a back-up presentation of important flight information upon the failure of one or more primary instrument displays as claimed in the present invention (see also Applicant's remarks on pages 1-3 of the reply filed 2/24/2004)

Claims 2-12 and 14-21 serve to further define the invention of claims 1 and 13 over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Briffe et al. (US006112141A and US005978715A) teaches an apparatus and method for graphically oriented aircraft display and control.
